As fresh as paint—that's just how clean and fresh Knickerbocker wagons are in their new Spring coats. Scrubbed to a shine, then painted a golden yellow, they rival the Spring sunshine in cheerfulness. They're as welcome as Spring, too, with their loads of crystal clear, pure Knickerbocker Ice to put the cheery tinkle in glass and pitcher—the sparkling "bed" under fruit and celery.

Through the snows of winter, through the blustering days of Summer, the Knickerbocker driver is so faithful in service you can almost set your clock by his arrival.

GREEKS ONCE MORE
WAR WITH TURKS;
ADVANCE 20 MILES

Line on Both Smyrna and
Brussa Fronts Is Pushed
Forward.

GOAL IS BAGDAD ROAD

British, French and Italian
Armies Will Not Take
Part in Offensive.

NOW CALLED 'DYING KICK'

Belief Greeks May Reach An-
gora in Few Weeks, but
Can't Afford to Stay.

By the Associated Press.

CONSTANTINOPLE, March 24.—An advance of about twenty miles was made by the Greeks on both the Smyrna and Brussa fronts during the first day of their offensive against the Turks. The latter, who are fighting hard, declare they will not retreat until every means of defence has been exhausted.

The offensive, which began after weeks of preparation, is proceeding under good weather conditions. The Greek line now runs some twelve miles east of Yenishahr on the Brussa front, and also about twelve miles east of Ushak on the Smyrna front.

The objective of the offensive is the Bagdad railway, although Greek commanders have planned to reach the city of Eski-Shehr. It is affirmed that British, French and Italian armies in the Near East will not participate in the campaign.

Gen. Papoulas, commander of the Greek forces on the Smyrna front, has issued a proclamation to the army calling upon the Greek soldiers to exterminate the barbarians and become the apostles of Hellenic civilization. The Greek official communication announces no prisoners in Wednesday's offensive.

Locally the offensive is described as "the dying kick of the Greeks." While it is considered possible from the Turkish viewpoint that the Greeks may reach Angora in the course of a few weeks, it is declared this means that they will be obliged to stay there at vast expense until obliged automatically to retire from want of funds.

It is reported that the Greek troops number 120,000. The Turkish Nationalists are believed to have about 90,000 effectives in the field, but have smaller supplies upon which to draw.

By the Associated Press.

ATHENS, March 24.—On the Smyrna front in Asia Minor the Greeks are advancing against the Turks, and already have made good progress in the Ushak and Brussa regions, according to the report received from the Greek commander. His attack followed.

"We began our attack on the Ushak sector and occupied a line thirty kilometers east thereof. In the Brussa sector we crossed the Gallios river, and occupied the line from Hassan Pasha to Yenishahr, twenty kilometers to the eastward."

"Airlines report that the Turks are retreating in disorder."

GREEKS HOPE SEVRES
TREATY WILL STAND

Expect to Capture Angora
and Placate Allies.

Special Cable to THE NEW YORK HERALD.
Copyright, 1921, by THE NEW YORK HERALD.

New York Herald Bureau,
London, March 24.

With the new mobilization of 40,000 men—which almost exhausts the resources of the Greek army—the Greek forces in Asia Minor will be 150,000 men, according to Demetrios Gounaris, Greek Minister of War, who says that this is quite sufficient to enable the Greeks to capture Eski-Hissar and prevent a junction of the troops of Mustafa Kemal Pasha, released from Cilicia, under agreement with the French, with the Nationalist troops, which are operating against the Greeks. He said the Turks have at present 90,000 out against the Greeks, and can release from Cilicia 30,000 more.

M. Gounaris says the Greeks think only two or three months will be necessary to conquer Angora, which will then put them in a position to say to the Powers: "Here is a new situation. They have high hopes that such success would result in the Sevres treaty remaining unchanged."

M. Gounaris said the financial position of Greece was not hopeless, and actually intimated that Greek checks would be honored by Great Britain.

MINERS ASK POOLING
OF RECEIPTS AND PAY

British Coal Men Want Set-
tlement on National Basis.

Special Cable to THE NEW YORK HERALD.
Copyright, 1921, by THE NEW YORK HERALD.

New York Herald Bureau,
London, March 24.

Premier Lloyd George's summons at the luncheon given by "the new members of the Coalition group" yesterday to all hands to repel Socialism in the British Isles promises to be put to a test sooner than was expected. To-day the coal miners decided to fight the question of a national settlement of mine wages. This means that they want all the mine receipts pooled, irrespective of the actual profits of the various fields, and also want their wages paid on a national scale, irrespective of the capacity of the various fields to earn that amount of pay.

The mine owners say that a national wage scale which does not take account of the earning capacity of the various fields would be an economic impossibility, and the result would be the closing down immediately of the unprofitable fields, thus reducing the British coal output below the national needs.

The miners assert that if national rather than economic needs dictate should be a national settlement. They threaten to quit work on April 1 if the mine owners do not agree to their plan by the time the coal mine industry is taken out of Government control.

Woman Enters Cabinet
of Canadian Province

VICTORIA, B. C., March 24.—Mrs. Ralph Smith today was sworn in as a member of the Cabinet of British Columbia. She will be a "Minister without portfolio," voting in the Executive Council but having no special department of government under her supervision. Mrs. Smith, who is the widow of a former Minister of Labor in the Canadian Government, is the only woman member of the British Columbia Legislature and the first woman in Canada (or elsewhere, except perhaps Russia), to attain to Cabinet rank.

STERNER MEASURES
IN IRELAND SEEN

Sir Nevil May Get Control of
Military in Hope of End-
ing Reprisals.

Special Cable to THE NEW YORK HERALD.
Copyright, 1921, by THE NEW YORK HERALD.

New York Herald Bureau,
London, March 24.

After a consultation between Sir Hamar Greenwood, Chief Secretary for Ireland, Sir Nevil Macready, head of the Government forces in Ireland, and Premier Lloyd George this afternoon, it is understood that the only change in the policy toward Ireland is that Sir Nevil may be put in complete control of all the military forces in Ireland and held responsible for their discipline. Then with a disciplined force, thereby avoiding charges of reprisals, the Government will go on with a more severe campaign of repression than ever has been known. It is hoped by employing this method to suppress the disorder to such an extent that the elections in southern Ireland can be held before June.

It will require an act of Parliament to give Sir Nevil these powers, but meanwhile it is understood that the Black and Tans and Black and Tanism will be held in check by Gen. Tudor, commanding the auxiliary forces. The Government is determined to enforce the discipline of the Black and Tans and has threatened to disband them if this is not accomplished. Sir Nevil, it is understood, places a high value on the legitimate phases of their police work, however, and is said to have promised to make every effort to keep them in order.

He is also understood to have reported there is no chance of an uprising at Easter further than that which is already on hand in the way of fierce but scattered attacks, which he believes the troops are able to cope with despite losses.

Premier Lloyd George, although representing himself still to be ready to receive offers of peace from an authoritative Irish source, is reported not to be confident that any such offer is coming for some time yet. He is determined to go on with the effort to force a settlement through the house rule for Ireland set out in the statute books, which the Irish again and again have repudiated as "plunder and partition" and not containing any possible germs of settlement.

Lord Northcliffe to-night came out straight for a new deal in Ireland. Writing in the "Times" after a day under the date of St. Patrick's day on the subject, "Ireland and World Peace," he says: "A settlement can only be reached when the English public realize the futility of maintaining by force and under world wide condemnation an obsolete form of government such as we have always been the first to denounce in foreign countries."

He condemns the Government as being "far too pliant to Ulster's dictation" and as "giving Ireland sufficient power to make her dangerous without offering her sufficient inducement to make her friendly. No settlement can be attained except by a truce, the necessity for which becomes hourly more apparent."

MILITARY PREPARES
FOR EASTER OUTBREAK

Public Buildings in Ireland
Placed Under Guard.

DUBLIN, March 24.—Detailed military precautions have been taken against a possible Easter outbreak. Crown forces have been posted in the important public buildings. Officially no trouble is looked for. Similar precautions were taken last year, but instead of an armed insurrection simultaneous raids occurred on income tax offices and police barracks.

The Freeman's Journal says that a provisional agreement has been reached by which the Sinn Fein Constitutional and Nationalist parties will present a united front to the Unionist forces in the coming elections in the north of Ireland and that both parties have agreed that none of their successful candidates will sit in the Ulster Parliament.

Cardinal Logue has received £22,665 as a result of the collection ordered for the relief of Irish distress by Cardinal Dougherty of Philadelphia. The Lord Mayor of Dublin has received £2,077 from Bishop Corrigan of Baltimore for the same purpose.

BOLD PLAN TO RELEASE
IRISH PRISONERS FAILS

Scale Walls of Cork Jail,
Throw Rope Ladders.

By the Associated Press.

CORK, March 24.—Members of the Irish republican army made a carefully planned attempt last night to break into the jail here and release the prisoners there under death sentence. The attempt failed.

The republicans escorted all pedestrians from the roads near the jail and grouped them under armed guards, then entered the post office and made prisoners of the staff, and finally brought the previously collected pedestrians and told them to lie on the floor when firing began.

The republicans scaled the prison wall and threw rope ladders into the yard. One of the jail prisoners made a dash for liberty, but was quickly captured. Finding that their plan had failed, the republican forces dispersed.

LUBIN BUST UNVEILED IN ROME

Rome, March 24.—A marble bust in honor of the late David Lubin of California, founder of the International Institute of Agriculture, was unveiled yesterday in the presence of King Victor Emmanuel. The American Ambassador, Robert Underwood Johnson, members of the Italian Cabinet, Senators, Deputies and members of the American colony witnessed the unveiling.

FRENCH TRADE IMPROVES.

PARIS, March 24.—French imports of foodstuffs and materials for manufacturing goods decreased slightly more than 2,000,000 francs during the months of January and February, as compared with last year. The exports in the same categories increased over 1,000,000 francs.

ELECTRIC PLANT BOMBED

Fascisti Raid Syndicalist Head-
quarters, but City Gen-
erally Is Calm.

MILAN, March 24.—Thirty-one persons were killed and 100 injured by the bomb explosion in the Diana Theatre last night.

There are several versions of how the bomb was thrown. Some persons maintain that the missile was launched from the upper gallery, while others insist it was thrown into the theatre from a side door. Still others persons declare the bomb was exploded by a time fuse which had been placed inside a door by a man who was seen running away from the building.

A boy 18 years old was arrested today while rejoicing over the terrorist outrage. He declared that such acts were in reality humanitarian, being the beginning of the definite liberation of mankind from the red tape of law and tyranny of fellowmen. The youth was rescued by the police from a crowd which threatened to lynch him.

Some anarchists have been arrested on suspicion the explosion was inspired by them as a protest against the imprisonment of Malatesta, the anarchist leader.

Fascisti to-day rushed the office of the anarchist newspaper *Humanita Nova* and destroyed it. The furniture, machinery and rolls of print paper in the building were thrown into the street and burned. Explosions coming from the burning furniture indicated bombs had been hidden in it. Other Fascisti attacked and destroyed the headquarters of the Anarchist and Syndicalist Union and also the rooms of the Socialist Club.

An explosion occurred early to-day at the electric works, where three bombs were thrown. No damage was done. Royal guards arrested an anarchist named Amleto Astolfi, 18 years old, who is supposed to have been the author of the outrages. The youth had a loaded revolver, with which he shot at the guards who were pursuing him.

Signor Pontrenoli, former editor and manager of the *Secolo*, was slightly wounded in the theatre explosion. Among the dead are the engineer, Pietro Lazari; Carlo Avoitoni and Renzo Rossi, all belonging to the Lombard Democratic Association; Mario Podache, a professor of music; five members of the orchestra and two children.

Another person injured was the well-known actor America Gualti, who was in a box with Dina Galli, perhaps the most popular actress in Italy, watching the performance. Dina Galli was not injured.

LONDON, March 24.—A despatch to the Exchange Telegraph from Milan says that Enrico Malatesta, the Anarchist, who is in prison, announced his abandonment of his hunger strike when told that the outrage in the Diana Theatre was due to a report in circulation that he was dying.

FLORENCE, March 24.—Socialists in San Giovanni Valdarno, Tuscany, to-day laid an ambush and fired against several forces of Florentine Fascist who were going to Perugia. The Fascisti replied, and several persons were killed or wounded. The Fascisti Marquis Perolari shot several among the casualties. The Fascisti later attacked the Communist Club and destroyed everything inside the building. Police arrived in time to prevent the burning of the club.

ROME, March 23.—The strike in Genoa called for the purpose of securing the release from prison of Malatesta, the Anarchist, continued. That in Milan is being limited to one hour daily.

The Rome Communists are trying to organize a general strike for Friday.

PRIEST HERE PROTESTS
ON KILLING OF GIRL

Joseph McGroarty of 35 Bridge street, Brooklyn, has received letters describing the death of his niece, Miss Mary Harley, on February 2 at Mount Charles, County Donegal, Ireland, during a raid of British police at the home of her uncle, Bernard McGroarty, where she was convalescing from illness.

Miss Harley was 26 years old and had been in a convent in England for about two years. Ill health caused her return to her relatives in Ireland. She had been there but a short time when the raid took place. According to the letters Miss Harley was the first to discover the approach of the raiders. She notified the others, who escaped, but she was killed and the house was set afire.

The case has aroused the indignation of the Rev. Edward Harley of St. Gerard's Church, Hollis, Queens, who visited the girl's parents in London some years ago. Father Harley has written a letter of protest to Premier Lloyd George.

FIRST LONDON HOLDUP
OCCURRING IN DAYLIGHT

Three Men Rob Clerk in Mo-
tor Van of \$110,000.

LONDON, March 24.—What is believed to be the first big daylight holdup in London occurred at 9:30 o'clock this morning in Regent's Park, which at that time of the morning is traversed by hundreds of people going to their offices. A salary clerk of the Ministry of Pensions, with a bag containing \$110,000, was just leaving the gates of the park in a motor van when three men with revolvers held up the driver and ordered the official and his assistant to "clear out if you value your lives." The robbers mounted the van and drove off, with the driver still at the wheel.

CIGARS MAY BE DEARER.

Manila Makers Strike and Spain
Doubles Duty.

MANILA, March 24.—More than 10,000 cigarmakers struck here to-day as a protest against a 20 per cent. reduction in wages. Twenty-three factories were affected.

HAVANA, March 24.—Customs duties on Cuban cigars entering Spain will be in future assessed on the basis of the Spanish gold peseta instead of the silver peseta, as heretofore. This amounts, it is deemed, to a 50 per cent. increase in the duties on cigars imported to Spain. Cuban manufacturers of cigars have cabled a protest to Madrid.

UNIONS IN GERMANY
DENOUNCE RED MOVE

Continued from First Page.

The risk-rail the cue for the present outbreak." Vorwarts holds that Communist machinations are responsible for the blood spilled in Hamburg and various places in middle Germany, which, it says, is only the logical outcome of the Reds' insistent demand that the workers arm themselves.

The Red flag, the Communist organ, continues to publish inflammatory articles. The bourgeois press charges that the present reign of lawlessness is directly traceable to orders of the Moscow Cabinet.

The discussion of the question of proclaiming a state of siege in the riot area has been postponed in view of the attitude of organized labor, which is severely opposing the Communist movement. The executive board of the Federation of Trade Unions has adopted a resolution denouncing the Reds' attempt to provoke a general strike and also warning its members not to heed the Communist leaders.

President Ebert, in agreement with the Government of Prussia, has issued an edict establishing measures to restore public order in the regions disturbed by the Communist uprising. The condition established by the President's

pronouncement is a "non-military state of siege."

In compliance with the President's move, the head of the Government of Saxony has appointed a civilian commissary to act in the emergency.

It had been decided earlier by the Cabinet of the empire and by the Prussian Cabinet, according to the *Vossische Zeitung*, that a proclamation of martial law was not necessary in view of the general attitude of the workers.

The railway administration, it was announced, had organized patrols of lines in the danger section in order to foil attempts at derailment of trains or destruction of property.

DISORDER GROWING
IN UPPER SILESIA

Berlin Hears of 2,000 Refu-
gees in Kattowitz.

BERLIN, March 24.—Private advice reaching Berlin from southern and southern-eastern points in the Upper Silesian plebiscite area indicate an increasing spread of disorder and violence, especially in the border communities. Advice from Kattowitz says that 2,000 refugees have arrived there seeking the protection of the plebiscite commissioners. They are camping in the marketplace. Many are reported wounded.
